

SEI-MD

Presents:

Prof. William Chan, A.I.A.

ARCHITECTURE:

Breaking the Box

Tuesday April 15, 2008
Engineering Society of Baltimore
11 W. Mt. Vernon Place
6:00 p.m.

\$10 ADMISSION (Free with Student ID)

RSVP by Monday, April 14th to
md_sei@ascemdlis.org

William Chan is an assistant professor of Architecture at Morgan State University. His presentation will focus on architectural philosophies throughout history, and highlight how advancements in technology have influenced those philosophies. Architects often challenge engineers to think outside the box in order to achieve exciting new structures. But the ability to advance the limits of our capabilities is truly a partnership between the professions. Prof. Chan will present a number of examples focusing on his own unique experiences as a designer in several states, and as a member of Baltimore's Design Review Panel.

The session will interest those with expertise in structural design and architecture.

6:00 – 6:30	Registration Light Fare\Cash Bar
6:30 – 6:45	SEI Announcements
6:45 – 7:30	Presentation
